Programme

Tuesday, 29 March 2016

Redcliff School Board of Trustees
C/O Redcliff School

To The Redcliff School Board of Trustees,

RE: Redcliff School – Gabion Wall Programme

Please see our basic programme attached.

In order to keep our programme to the minimum possible duration we have allowed to,

- Fence the construction area off which will allow construction to be completed uninterrupted by other work/activities taking place onsite. We estimate we would need a 25m wide construction strip along with a larger area for material stockpiling.
- Have un-hindered site access. In order to achieve this we would either need to use the existing access with no minimal interruption or create a temporary access along the western boundary of the site.
- Completed the work using multiple crews where possible to minimise construction time.

If you have any queries regarding the above, please contact us.

Yours faithfully
FULTON HOGAN LTD

A handwritten signature in black ink, appearing to read 'H. Rees', with a long horizontal flourish extending to the right.

Hamish Rees
Excavation Department Manager
